

Zeta Sigma Chapter is celebrating the centenary of 1922, the year the world emerged from war and pandemic to become recognizably modern. In a sincere attempt to capture the unique and special accounts of the chapter, a historic chronicle book was developed to share and document the rich history of the chapter. While not a complete and final history as not all the facts are included however, the chapter historians have worked diligently to research the Fraternity archives, convened interviews with our elders, and collect every scrap piece of paper, document, and photograph available to tell the story as it relates to Zeta Sigma Chapter. We believe that we have created an amazing illustrative paperback that will hopefully encapsulate the History, the Pride, and the Legacy of this magnificent chapter. In conjunction with our effort to raise money for the March of Dimes, we are offering our Chapter History Book for sale to the public with proceeds going to support our partnership with the March of Dimes/ March for Babies.
